

BLOOMSBURY RESIDENTS' ACTION GROUP

PROOF OF EVIDENCE 7

Routes designated for emergency vehicles

1. Emergency routes in the streets surrounding Tavistock Place

(Source: https://camden.gov.uk/ccm/cms-service/stream/asset/?asset_id=3440458&
Page 22. Extract from Fig 2.12)

2. The red route west to east in the middle is Euston Road. Green indicates emergency routes. It can be seen that Judd Street and Hunter Street (now congested) and Tavistock Place (now blocked one-way experimentally) are meant to be emergency routes but have been detrimentally affected by the recent change. Current TfL and Camden proposals for further road blocks at the north end of Judd Street and the south end of Hunter Street would adversely affect other emergency routes, namely:

Guilford Street
Lansdowne Terrace
Brunswick Square

Figure 2.12 – Road Hierarchy in Camden

4. Photo

The video evidence will show emergency vehicles getting stuck in displaced traffic. The photo below shows an ambulance trying to join Southampton Row which is completely congested.
